

## PRODUCT SPECIFICATION

PRODUCT: BLUE POWDER FREE NITRILE GLOVE

BRAND: ECO

## I – PRODUCT

Ref. SANICEN	N/A
Product	DISPOSABLE GLOVE
Composition	NITRILE (LATEX FREE)
Colour	BLUE
Units/inner box	100 Units.
PPE	PPE GLOVE - CAT III (TYPE C)
Medical Device	EXAMINATION GLOVES - CLASS I
Basic Features	NON-REUSABLE
	AMBIDEXTROUS
	NON-STERILE
	POWDER FREE
	A.Q.L. 1.5

### Product description:

Elastic nitrile glove that provides high sensitivity to the user and conforms to the hand without causing discomfort. The cuff features an anti-drip and reinforced edge, preventing the glove from rolling up while facilitating easy placement. It has a microtextured external surface on the fingertips for enhanced grip, while the internal surface is chlorinated and smooth (providing comfort).

### Use and application by category:

- General:** Minimize the exposure of the user's hands to dirt, dust, foreign bodies, moisture, and water during the execution of household and/or industrial tasks.
- PPE CAT III:** Protect the user's hands against risks and/or hazards detailed in the labelling, provided that the product is used in accordance with the use instructions.
- Medical Device:** Reduce the risk of contamination and/or infection in the patient undergoing a physical examination, interventions and/or healthcare tasks that do not require a sterile glove (dentistry, medical examinations, patient care, etc.). Additionally, it minimizes the risk of contamination of the user's hands.

### Use and storage recommendations:

- Disposable gloves (single use – do not reuse).
- Verify the integrity of the product before use.
- Use the glove with dry and clean hands.
- Remove the glove by folding the cuff to turn the product inside out (do not touch the outer part).
- After use, wash and hydrate your hands.
- Keep the product in the original packaging, in dry places and avoid exposure to direct light.
- Due to its low absorption capacity, the glove should be worn for a limited period, allowing the hands to rest.

### Composition and allergies:

Nitrile gloves **recommended for users allergic to latex**. In the initial formulation of the glove, accelerators associated with mild dermatitis (carbamates and other non-volatile residues) are used, which, once the manufacturing process is complete, may be present in the form of residual traces.

### Physical measures:

Size	Weight (g)	Length (mm)	Width (mm)	Thickness (mm)		
				Finger	Palm	Cuff
XS	2,3 ±0,4	≥ 240	75 ±5	0,08 ±0,03	0,08 ±0,03	0,07 ±0,03
S	2,6 ±0,4	≥ 240	85 ±5	0,08 ±0,03	0,08 ±0,03	0,07 ±0,03
M	3,0 ±0,4	≥ 240	95 ±5	0,08 ±0,03	0,08 ±0,03	0,07 ±0,03
L	3,2 ±0,4	≥ 240	105 ±5	0,08 ±0,03	0,08 ±0,03	0,07 ±0,03
XL	3,5 ±0,4	≥ 240	115 ±5	0,08 ±0,03	0,08 ±0,03	0,07 ±0,03

### Size:

Commercial size	XS	S	M	L	XL
Hand size according to EN ISO 21420:2020	5 - 6	6 - 7	7 - 8	8 - 9	9 - 10

Hand size according to EN ISO 21420:2020	5	6	7	8	9	10
Hand length (mm)	149	160	171	182	192	204
Hand perimeter (mm)	127	152	178	203	229	254

### Logistic information:

- 100 gloves per dispenser box (recyclable cardboard case).
- Dispenser box with pre-cut on the top for an easy glove extraction.
- Labelling in multiple languages: ES, EN, PT, IT, DE and FR.
- Clear indication of size on the dispenser box and the secondary box.
- The dispenser box includes a hand gauge to facilitate size selection.

### Penetration and degradation resistance:

According to EN ISO 374-1:2016/A1: 2018 (TYPE C)						
PRODUCT	COD	LEVEL (Penetration)	Degradation (%)			
Sodium hydroxide 40%	K	6	-24,74			
-	-	-	-			
-	-	-	-			
Level	1	2	3	4	5	6
Time	>10	>30	>60	>120	>240	>480

### Additional information:

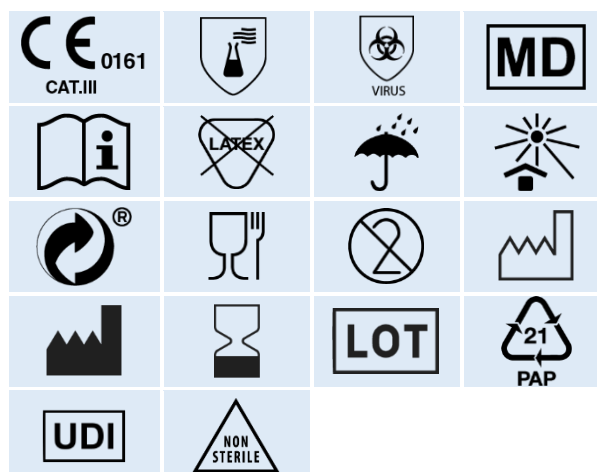

FEATURE	Before aging	After aging
Tensile strength (ASTM)	14 MPa (min.)	14 MPa (min.)
Ultimate elongation (ASTM)	500% (min.)	400% (min.)
Breaking force (EN 455-2)	6 N (min.)	6 N (min.)

**Food contact:** Suitable for contact with all types of foods in accordance with Regulation (EU) No 10/2011 of January 14, 2011, and its subsequent amendments.

### General labelling:

Product Name
Manufacturer name and address
Size and sizing chart
Lot number
Number of gloves inside the inner box
Production and expiry date
Use and storage instructions
EAN 13
A.Q.L. 1,5
